

## RECYCLING LESSON PLAN

**Target Audience:** Grade 9

**Time/Duration:** 10 min.

**Class Location:** 9/A

**Language skills/focus:** Speaking, writing, vocabulary, listening

**Objectives:** By the end of the lesson, students will be able to learn

- what recycling is
- why it is important
- the benefits of recycling
- what to recycle

**Materials:** computer, smartboard

**Warm up (2 min) :** The teacher asks students “what do you know about recycling?” “Do you have any idea about it?”

Then the teacher makes students watch a short video on recycling so that students can have an idea about the topic. <https://www.youtube.com/watch?v=IsAg-JqJnA8>

**Main Activity (5min) :** The teacher presents the topic.

-power point presentation

-6 tips for recycling on powtoon

<https://www.powtoon.com/newdashboard/#/home?toolbarState=default&toolbarWidget=myPowtoons>

**Conclusion:**

Game time: Students try to solve puzzles which contain important vocabulary on recycling.  
(puzzlemaker)

## PUZZLE 1

convert  
planet  
product  
refill  
waste

## PUZZLE 2

help  
plastic  
recycle  
reusable

materials  
pollution  
reduce  
reuse
