

## The 7 R's of recycling

### ACROSS

2. Step back and think about the type of consumer you want to be and what this means for the environment.
3. Buy less, buy products that have little or no packaging and that last a long time, borrow instead of buy, and compost.
4. Try to fix items before disposing of them.
5. Upcycle instead of throw away. Examples: glass jars can be used to store dry goods, old calendar pages are used as DIY envelopes, old toothbrushes are used to clean hard to reach places, empty toothpaste tubes are used as funnels.

### DOWN

1. Put things back into the waste stream to be used again for something else.
3. Think before you buy and be prepared to not buy at all
